The Path to Protection: Licensure Checklist

Becoming a Licensed PWA Member

☐ **1- Complete the quick application form here**

Submit your quick application to us, and the license process begins! It takes less than 2 minutes to complete, and no payment is required at this time.

You can also choose whether or not you'd like to speak with one of our PWA Coaches. They can answer any questions you have about licensure, and discuss payment options.

☐ **2- Choose your payment plan & sign the license agreement**

We provide you payment options to fit your needs. For example, you can choose to pay for the License Course & Onboarding upfront, or include them in a 24-month installment plan. We'll also send you your official Licensing Agreement at this point — all we need is your signature, then you're on your way.

☐ **3- Submit your documents & complete a background check**

We'll need a few documents to confirm your qualifications and prepare your background check. You'll receive an email that will walk you through the process to complete this step.

☐ **4- Complete the PWA Licensure Course**

The Licensure Course is where you will become thoroughly educated in the basics of licensure, including the dos and don'ts of providing services under your PWA license. You'll be asked to complete a short quiz at the end of the course to pass (80% or higher) and obtain your license.

☐ **5- Welcome to the Community!**

Once you pass the course, you're now an officially licensed team member of the PWA! You'll receive your designed license and wall certificate, which include your license ID number.
